TECHNOLOGY COMMUNITY:

Emerging Technologies in Real Estate

Thursday, August 15, 2019

5:30 PM – 8:00 PM

Canadian Consulate in New York

237 Park Avenue, 20th Floor

New York, NY 10017

The real estate industry is going through unprecedented change due to a number of drivers but none more impactful than technology. AI, Blockchain and Robotics technologies has ushered in the rise of PropTech with a new breed of companies impacting every corner of the real estate industry.

The CoreNet "Emerging Technologies in Real Estate," will have Zak Schwarzman (MetaProp, Partner) explain the rise, history, dynamics, key stakeholders, and trends of the PropTech industry. The event will showcase the following six PropTech companies that are using technologies and services to re-define the real estate industry today:
