WELCOME TO THE

2019 ULI NEW YORK

AWARDS *for* EXCELLENCE *in* DEVELOPMENT *gala*

The Awards for Excellence recognize outstanding development projects in the private, public, and nonprofit sectors across New York State that best exemplify ULI's commitment to responsible land use and creating sustainable, thriving communities. The Awards for Excellence recognize the full development process of a project, not just its architecture or design. Projects that reflect best-in-class development will be celebrated in nine categories: office development, market-rate housing development, affordable housing development, mixed-use development, repositioning or redevelopment, hotel development, institutional development, industrial development, and civic development.

Visionary Leadership In Land Use AWARD

2019 HONOREE | Larry A. Silverstein

Urban Land Institute New York is proud to honor **Larry A. Silverstein, Chairman of Silverstein Properties, Inc.**, with the organization's first-ever **Visionary Leadership in Land Use Award**.

"This honor is in large part a result of my efforts rebuilding the World Trade Center," said **Larry A. Silverstein**. "It has certainly been the passion of my life. But it has been a collective effort involving thousands of people. Many members of the Urban Land Institute, and others in our industry, put their hearts and souls into the rebuilding effort. We have all been driven – not by ego or personal agendas – but by our unshakeable love for New York and by the need to respond in a way that would make everyone proud."

The Award recognizes a leader within New York's real estate community whose body of work exemplifies the mission and values of ULI, and who has had a transformational impact on our region and the industry. The recipient must also have demonstrated an enduring commitment—through civic engagement—to industry associations, causes and initiatives.

From his perseverance in rebuilding the World Trade Center site and helping spearhead the revitalization of Lower Manhattan, to pioneering sustainability in commercial office buildings, to developing state of the art residential buildings on West 42nd Street, Larry's commitment to responsible development is a model for the twenty-first century developer.

– **Steve Kohn**, ULI New York Chairman
