"My students are still using the vocabulary and knowledge they learned participating in Salvadori! They enjoy highlighting the building materials and transferring knowledge to other areas in the curriculum."

– Salvadori In-Depth Teacher, PS 185

Students UNDERSTAND

how bridges can
support
such heavy loads

and how
buildings stand up

Bring Math & Science to Life!

Salvadori has been working with schools to bring math and science to life for students for more than 35 years! Multi-day in-school and after-school programs celebrate our collaborative, hands-on, project-based approach to learning through the buildings, bridges, parks, and communities that surround our students' lives.

Salvadori programs:

- promote college and career readiness for all students
- emphasize higher-order skills in all our curricula
- incorporate the Danielson Framework for Teaching
- provide scaffolds in English and high-quality supports and extensions
- yield student work products that reflect high levels of thinking, participation, and ownership

Salvadori programs support instructional goals and provide teachers with structured professional collaborations that strengthen instructional capacity and promote the implementation of CCLS.

Salvadori's residencies include all materials, instruction, teacher planning sessions, curricula, and assessment. The number of classes, length of sessions, grade range, etc., are negotiable.

Remember, Salvadori programs:

- are perfect for grant funding
- align with Common Core and New York State Standards
- support different learning styles

BOOK A PROGRAM NOW!

Simply choose your program, start date, grade level(s), and topic(s) ~ we coordinate all billing.

Payment is not due until programs are completed.

Great Ways to Save:

- refer a new school and both schools receive 10% off
- multi-program discounts are available; call for a customized quote
- program sharing: split the cost of a program by partnering with another school in your building

- Salvadori Enrichment programs
- Salvadori After-School programs
- 2-Day Salvadori *Paper Bridges*

Salvadori Professional Development

THE KATHLEEN GRIMM MEMORIAL INSTITUTE

26 & 27 April 2016 | 9:00 am to 4:00 pm

Participants will be able to:

- use the built environment to bring math and science to life
- incorporate built environment themes into standards-based lesson plans
- investigate applications of math and science in architecture and engineering

IN-SCHOOL TARGETED PROFESSIONAL DEVELOPMENT

PD customized for your school's needs

- from 1 hour to multi-day workshops
- develop a school culture of project-based learning using the built environment to integrate math, science, and the arts across curricula and with State and National Standards

NYC DOE AFTER SCHOOL PROFESSIONAL DEVELOPMENT PROGRAM (ASPDP)

Available Fall & Spring

- intensive 36-hour PD that models best practices and enables teachers to develop curricula specific to their classroom
- professional instructor and peer review
- contact us or refer to the ASPDP catalog for details

The Salvadori Center's programs and services are made possible through the generous support of our corporate and individual sponsors – including, but not limited to: the National Endowment for the Arts, the National Science Foundation, the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature, The Harry and Jeanette Weinberg Foundation, Time Warner Cable, conEdison, and public funds from the New York City Department of Cultural Affairs, in partnership with the City Council.
